

SW STAKE WALLET

STAKE WALLET

Stake Your Funds & Grow Your Funds

About Us

Stake Wallet is a Super Finance Company that helps you to save, plan and invest across your family members — an all in one Website. Since its launch in 2025, the application has quickly grown to 1Mn users backed by innovative features such as US Stocks investing, Neo Banking, Deposits and Financial life tracking & management.

Our mission is to improve your financial future by helping you to save and earn more. Our vision is to be the one stop shop for your finances — Your Family's Super Money Company

Stake Wallet is backed by reputed foreign institutional investors comprising Tiger Global, Steadview Capital, Dragoneer, Sixteenth Street Capital who have invested a total of \$143Mn in the Super Finance Company .

ON THE MARKET SINCE 2025

The current version of Stake Wallet is the third build which is a result of many years and various financial technology projects accomplished by Stake Wallet.

Decentralized

In blockchain, decentralization refers to the transfer of control and decision-making from a centralized entity (individual, organization, or group thereof) to a distributed network. Decentralized networks strive to reduce the level of trust that participants must place in one another, and deter their ability to exert authority or control over one another in ways that degrade the functionality of the network.

Decentralization is not a new concept. When building a technology solution, three primary network architectures are typically considered: centralized, distributed, and decentralized. While blockchain technologies often make use of decentralized networks, a blockchain application itself cannot be categorized simply as being decentralized or not
